

AGLAONEMA SILVER BAY *Aglaonema 'Silver Bay'*

The Aglaonema Silver Bay, also called a Chinese Evergreen, is a low-maintenance houseplant that tolerates most indoor conditions, making it a great choice for people who are new to plant care. With large, oval leaves featuring green and silver-blue patterns, the Aglaonema Silver Bay can bring color and life to low light areas that might seem inhospitable for plants. While the Aglaonema Silver Bay will periodically produce flowers, the plant is generally prized for its lush foliage and remarkable adaptability.

GEOGRAPHIC ORIGIN:
Tropical & subtropical Asia

GREAT FOR: Low Sunlight

FEATURES:
Low Maintenance, Air Purifying

GROWTH RATE: Slow in low light

LIGHT

Prefers bright, indirect light but can tolerate low light as well. Avoid direct sunlight.

WATER

Allow soil to mostly dry out - but not completely. Water less often in winter.

DIFFICULTY

Easy! Just make sure the plant isn't in direct sunlight and don't overwater.

TEMPERATURE

Prefers warm conditions above 60°F. Keep away from drafty windows and air conditioners.

FERTILIZER

Feed with a mild liquid, indoor plant fertilizer about 1-2 times a month during the growing season.

SOIL

A peaty All-Purpose potting soil with good drainage works best.

PRUNING & PROPAGATION

Prune yellow or damaged leaves by cutting to the leaf node. If leggy, prune stems down to 4-8 inches tall to stimulate new growth. To propagate, large plants can be divided.

PET FRIENDLY?

Sorry! Plant contains very sharp calcium oxalate crystals that, when eaten, cause mouth and digestion irritation.
