

Snake Plant Zeylanica *Sansevieria zeylanica*

The Snake Plant Zeylanica – also called Mother-in-Law’s Tongue – is a stemless evergreen with fleshy, sword-shaped foliage that can grow up to four feet tall in its native habitat. The dark leaves – with their green-gray bands – spiral outward from a rosette at the base. Tolerating a wide range of environmental conditions, the Snake Plant Zeylanica is perfect for spaces where natural sunlight may be limited.

GEOGRAPHIC ORIGIN:

Tropical Africa

GREAT FOR: Low Sunlight

FEATURES:

Low-maintenance, Air-purifying

GROWTH RATE: Slow

LIGHT

Prefers bright, indirect light but can tolerate low light as well.

WATER

Allow soil to dry out completely and water less often in winter.

DIFFICULTY

Easy! Just make sure not to overwater.

TEMPERATURE

Prefers warm conditions above 50°F. Keep away from drafty windows and air conditioners.

FERTILIZER

Feed with a mild cactus/succulent fertilizer about once a month during the growing season. Do not fertilize in winter.

SOIL

Light, loose & airy. Cacti/Succulent Mix or African Violet Mix work best.

PRUNING & PROPAGATION

Trim damaged leaves down to the base with clean shears. To propagate, divide plant when repotting during the spring.

PET FRIENDLY?

Sorry! Contains saponins, which are chemical compounds that can make dogs and cats nauseous if the leaves are consumed
